Thanks for the help June. And I am truly sorry for the confusion. Just let me know what you and Gary come up with for a final copy.

Thanks
Tina

Nothing reverted - I sent you the fact sheet I had done before you made changes only to show you the format we use. Your changes were not available at that time. The final wording/information changes are yet to be done. As I said earlier, Gary is out of the office until Thursday and after today I will be out until Monday so he and I will get together then and finalize the fact sheet. Also, as Beverly said, adding the logo is not a problem, we do it all the time.

RE: Gulfco Public Fact Sheet

Beverly,

The actual format of the document really doesn't matter to us. Fortunately we don't have a set format that we have to use. My concern was that all of the changes we had made had been eliminated when the formatting was reverted back to EPA's.

Tina

May I recommend that we use the EPA format with the DSHS logo included. We had to have our format approved thru product review and are required

9543311

to use the style June sent you. Addition of a logo is not a concern as we do it all the time. Thanks

RE: Gulfco Public Fact Sheet

Phyllis,

Gary, Carrie and I decided that we would do a joint fact sheet between EPA and DSHS. This way both EPA and DSHS information could be on one sheet and we wouldn't over load the citizens with paper.

When Gary sent us his version of the fact sheet we added information to it and put it into a simpler format then added or logo to the top of the page. I noticed that when you put it back into the old format you removed our logo and went back to the original wording excluding what we had added.

Maybe once Gary returns to the office we can get together and decide what we want to do. Or if you know of any reason why we can't or shouldn't do a joint fact sheet please let me know so that we can get one of our own prepared.

Thanks
Tina

Oops! Forgot the attachment!

Okay, think you got Gary's copy. I had put it in our format so we will stick to that - it is our usual 2 column fact sheet. Thanks

Thanks!

RE: Gulfco Public Fact Sheet

We were trying to get all the information (other than contact info) on one page. We don't have a problem with the "old" format, whichever...

Also - citizens have told us in the past that the 2-column format is easier to read and follow than the paragraph format.

Thanks Carrie. Gary is out of the office until Thurs. and after tomorrow, I am out until next Monday. As soon as everyone has reviewed, I am sure we will get back to you. One question: Is there a reason you changed our template/format?

Thanks

RE: Gulfco Public Fact Sheet

Hey Gary -

Attached is our take on the fact sheet.

One question - the part that is highlighted about soil sampling and monitoring wells, should locations be added for these? (ex - on-site monitoring wells...)

Tina and I are in the office this afternoon if you have any questions. Thanks!
